LANGUAGES

- English
- Spanish

JOHN DOE

Full-stack JavaScript developer with 4+ years of experience building scalable, user-centric applications. Strong expertise in React, Node.js, and cloud-native deployments. Passionate about performance optimization and clean architecture.

EXPERIENCE

Full-Stack Developer

2022-01 - Present

BlueWave Technologies

San Francisco, CA

- Developed internal dashboards using React and TypeScript
- Improved backend performance by 30% using Node.js and Redis caching
- Worked on microservices architecture with Docker and Kubernetes

Frontend Developer

2020-03 - 2021-12

Innovate Labs

Remote

- Built modular UI components using React and Tailwind CSS
- Implemented form validation and API integrations
- Optimized page load times through code-splitting and lazy loading

PROJECTS

Smart Resume Builder

<https://resume-demo.app>

<https://github.com/johndoe/smart-resume-builder>

- Built a customizable resume builder using React and pdf-lib
- Implemented drag-and-drop blocks and autosave functionality
- Added export options with ATS-optimized formatting

Travel Explorer

<https://travelexplorer.app>

- Created a location-based travel recommendation platform
- Integrated Google Maps API with custom search filters
- Implemented responsive UI with Tailwind CSS

EDUCATION

University of California, Berkeley

2013 - 2017

B.Sc. in Computer Science

Berkeley, CA

- Graduated with Distinction
- Completed senior project on real-time data visualization using WebSockets

ADDITIONAL SECTIONS

- Playing chess
- Photography
- Travel blogging
- Exploring new JavaScript frameworks
