- English
- Spanish

JOHN DOE

Full-stack JavaScript developer with 4+ years of experience building scalable, user-centric applications. Strong expertise in React, Node.js, and cloud-native deployments. Passionate about performance optimization and clean architecture.

EXPERIENCE

- Full-Stack Developer
BlueWave Technologies

2022-01 - Present
San Francisco, CA

 - Developed internal dashboards using React and TypeScript
 - Improved backend performance by 30% using Node.js and Redis caching
 - Worked on microservices architecture with Docker and Kubernetes
- Frontend Developer
Innovate Labs

2020-03 - 2021-12
Remote

 - Built modular UI components using React and Tailwind CSS
 - Implemented form validation and API integrations
 - Optimized page load times through code-splitting and lazy loading

PROJECTS

- Smart Resume Builder

<https://resume-demo.app>
<https://github.com/johndoe/smart-resume-builder>

 - Built a customizable resume builder using React and pdf-lib
 - Implemented drag-and-drop blocks and autosave functionality
 - Added export options with ATS-optimized formatting
- Travel Explorer

<https://travelexplorer.app>

 - Created a location-based travel recommendation platform
 - Integrated Google Maps API with custom search filters
 - Implemented responsive UI with Tailwind CSS

EDUCATION

- University of California, Berkeley

2013 - 2017
Berkeley, CA

B.Sc. in Computer Science

 - Graduated with Distinction
 - Completed senior project on real-time data visualization using WebSockets

ADDITIONAL SECTIONS

- Playing chess
- Photography
- Travel blogging
- Exploring new JavaScript frameworks
